DEPARTMENT OF SOCIAL SERVICES REGULATION - TITLE 22 DIVISION 6 CHAPTER 8 SECTION 87469

WHAT IF I CHANGE MY MIND?

You can change or cancel your advance directive at any time as long as you can communicate your wishes. To change the person you want to make your healthcare decisions, you must sign a statement or tell the doctor in charge of your care.

WHAT HAPPENS WHEN SOMEONE ELSE MAKES DECISIONS ABOUT MY TREATMENT?

The same rules apply to anyone who makes healthcare decisions on your behalf – a healthcare agent, a surrogate whose name you gave to your doctor, or a person appointed by a court to make decisions for you. All are required to follow your **Health Care Instructions** or, if none, your general wishes about treatment, including stopping treatment. If your treatment wishes are not known, the surrogate must try to determine what is in your best interest.

The people providing your health care must follow the decisions of your agent or surrogate unless a requested treatment would be bad medical practice or ineffective in helping you. If this causes disagreement that cannot be worked out, the provider must make a reasonable effort to find another healthcare provider to take over your treatment.

WILL I STILL BE TREATED IF I DON'T MAKE AN ADVANCE DIRECTIVE?

Absolutely. You will still get medical treatment. We just want you to know that if you become too sick to make decisions, someone else will have to make them for you. Remember that:

- A **POWER OF ATTORNEY FOR HEALTH CARE** lets you name an agent to make decisions for you. Your agent can make most medical decisions – not just

those about life sustaining treatment – when you can't speak for yourself. You can also let your agent make decisions earlier, if you wish.

- YOU CAN CREATE AN **INDIVIDUAL HEALTHCARE INSTRUCTION** by writing down your wishes about health care or by talking with your doctor and asking the doctor to record your wishes in your medical file. If you know when you would or would not want certain types of treatment, an **Instruction** provides a good way to make your wishes clear to your doctor and to anyone else who may be involved in deciding about treatment on your behalf.

- THESE TWO TYPES OF **ADVANCE HEALTHCARE DIRECTIVES** may be used together or separately.

To implement Public Law 101-508, the California Consortium on Patient Self-Determination prepared this brochure in 1991; it was revised in 2000 by the California Department of Health Services, with input from members of the consortium and other interested parties, to reflect changes in state law.

HOW CAN I GET MORE INFORMATION ABOUT MAKING AN ADVANCE DIRECTIVE?

Ask your doctor, nurse, social worker, or healthcare provider to get more information for you. You can have a lawyer write an advance directive for you, or you can complete an advance directive by filling in the blanks on a form.

PUB 325 (1/04)

Your Right To Make Decisions About Medical Treatment

This brochure explains your right to make healthcare decisions and how you can plan now for your medical care if you are unable to speak for yourself in the future.

A federal law requires us to give you this information. We hope this information will help increase your control over your medical treatment.

WHO DECIDES ABOUT MY TREATMENT?

Your doctors will give you information and advice about treatment. You have the right to choose. You can say "Yes" to treatments you want. You can say "No" to any treatment that you don't want - even if the treatment might keep you alive longer.

HOW DO I KNOW WHAT I WANT?

Your doctor must tell you about your medical condition and about what different treatments and pain management alternatives can do for you. Many treatments have "side effects." Your doctor must offer you information about problems that medical treatment is likely to cause you.

Often, more than one treatment might help you - and people have different ideas about which is best. Your doctor can tell you which treatments are available to you, but your doctor can't choose for you. That choice is yours to make and depends on what is important to you.

CAN OTHER PEOPLE HELP WITH MY DECISIONS?

Yes. Patients often turn to their relatives and close friends for help in making medical decisions. These people can help you think about the choices you face. You can ask the doctors and nurses to talk with your relatives and friends. They can ask the doctors and nurses questions for you.

CAN I CHOOSE A RELATIVE OR FRIEND TO MAKE HEALTHCARE DECISIONS FOR ME?

Yes. You may tell your doctor that you want someone else to make healthcare decisions for you. Ask the doctor to list that person as your healthcare "surrogate"

in your medical record. The surrogate's control over your medical decisions is effective only during treatment for your current illness or injury or, if you are in a medical facility, until you leave the facility.

WHAT IF I BECOME TOO SICK TO MAKE MY OWN HEALTHCARE DECISIONS?

If you haven't named a surrogate, your doctor will ask your closest available relative or friend to help decide what is best for you. Most of the time that works. But sometimes everyone doesn't agree about what to do. That's why it is helpful if you can say in advance what you want to happen if you can't speak for yourself.

DO I HAVE TO WAIT UNTIL I AM SICK TO EXPRESS MY WISHES ABOUT HEALTH CARE?

No. In fact, it is better to choose before you get very sick or have to go into a hospital, nursing home, or other healthcare facility. You can use an **Advance Health Care Directive** to say *what* you want to speak for you and *what* kind of treatments you want. These documents are called "advance" because you prepare one before healthcare decisions need to be made. They are called "directives" because they state who will speak on your behalf and what should be done.

In California, the part of an advance directive you can use to appoint an agent to make healthcare decisions is called a **Power of Attorney For Health Care**. The part where you can express what you want done is called an **Individual Health Care Instruction**.

WHO CAN MAKE AN ADVANCE DIRECTIVE?

You can if you are 18 years or older and are capable of making your own medical decisions. You do not need a lawyer.

WHO CAN I NAME AS MY AGENT?

You can choose an adult relative or any other person you trust to speak for you when medical decisions must be made.

WHEN DOES MY AGENT BEGIN MAKING MY MEDICAL DECISIONS?

Usually, a healthcare agent will make decisions only after you lose the ability to make them yourself. But, if you wish, you can state in the **Power of Attorney for Health Care** that you want the agent to begin making decisions immediately.

HOW DOES MY AGENT KNOW WHAT I WOULD WANT?

After you choose your agent, talk to that person about what you want. Sometimes treatment decisions are hard to make, and it truly helps if your agent knows what you want. You can also write your wishes down in your advance directive.

WHAT IF I DON'T WANT TO NAME AN AGENT?

You can still write out your wishes in your advance directive, without naming an agent. You can say that you want to have your life continued as long as possible. Or you can say that you would not want treatment to continue your life. Also, you can express your wishes about the use of pain relief or any other type of medical treatment.

Even if you have not filled out a written **Individual Health Care Instruction**, you can discuss your wishes with your doctor, and ask your doctor to list those wishes in your medical record. Or you can discuss your wishes with your family members or friends. But it will probably be easier to follow your wishes if you write them down.

Attachment to Admission Agreement #5: Health and Safety Code Section 1569.152-154

Section 1569.152 of the Health and Safety Code:

(a) A residential care facility for the elderly as defined in Section 1569.2, which fails to make reasonable efforts to safeguard resident property shall reimburse a resident for or replace stolen or lost resident property at its current value. The facility shall be presumed to have made reasonable efforts to safeguard resident property if the facility has shown clear and convincing evidence of its efforts to meet each of the requirements specified in Section 1569.153. The presumption shall be a rebuttable presumption, and the resident or the resident's representative may pursue this matter in any court of competent jurisdiction.

Attachment to Admission Agreement #6: Personal Property Theft & Loss Policy

PERSONAL PROPERTY THEFT & LOSS POLICY

Employees and residents are all given a copy of our policy. The policy is explained to them. The policy is posted in our facility. We shall discuss our facility's efforts to control theft and loss, including the review of theft and loss documentation and how the administrator investigates the incident and results of the investigation.

We shall make a copy of our theft and loss program and the applicable section of the Health and Safety Code available to interested persons.

We do not have a safe or other means of safely securing resident valuables. They are encouraged to use their own private banking institution to provide this service. We shall provide a lock for the resident's bedside drawer or cabinet upon request of and at the expense of the resident, the resident's family, or authorized representative. The facility administrator shall have access to the locked area upon request.

The Administrator shall document each incident of theft or loss utilizing the LIC9060, and will include a description of the article, estimated value, date and time the theft or loss was discovered, the date and time of the theft or loss (if determinable), and action taken.

We shall maintain a current inventory of all personal property brought into the facility by residents who share a room with an unrelated resident. For these residents, all personal items must be inventoried, in ink, and witnessed by facility staff and the resident or resident's representative, unless the resident refuses the inventory and the refusal is documented. (CA H&S Code 1569.153 exempts residential units in which there are no unrelated residents and where the unit can be secured by the resident or residents are exempt from the requirement to inventory all resident's personal property.) The inventory can be written on the State form or equivalent, if desired. When the form is complete, copies will be distributed to and kept by the facility, the resident's family or responsible party, and the resident. If the resident has any additions to their personal inventory, it is the facility's policy to update the list and to make sure that the responsible parties obtain the updated copies. Likewise, when the resident loses or removes any items from their personal inventory, they are to notify the facility immediately and the facility will document appropriately. When a resident leaves our facility permanently, the inventory list will be verified by facility staff and the personal items will be packed. When the items are returned to the resident or responsible party the list will be re-verified and signed in receipt of belongings. If the resident dies, inventory and surrender of personal effects and valuables will take place to the resident's authorized representative in exchange for a signed receipt. While waiting for the resident's belongings to be picked up, the belongings will be stored in a secure storage area in the facility or at an off-site secure storage area. The facility will give immediate written notice to the public Administrator of the county upon the death of a resident whose heirs are unable or unwilling to claim the property.

Upon admission, all residents will be requested to appropriately label all clothing and personal items. Residents will be requested to keep fine jewelry and other items of value in a safe deposit box at their banking institution. No items of value will be entrusted to the facility for safe keeping and no cash or other moneys will be entrusted to the facility.

Residents are advised that when they notice a personal item is missing, they are to notify the Administrator or other staff member on duty immediately. The staff will conduct a thorough search for the missing item or

items. If the personal belongings cannot be found, an estimate of their value will be assessed. The estimate will be the original purchase price plus or minus any appreciation or depreciation that has occurred. If the theft exceeds \$100.00 or more, a report shall be filed with a Law Enforcement within 36 hours of the theft. If the facility pursues the unlawful detainer action, you must be served with a summons and complaint. You have the right to contest the eviction in writing and through a hearing."

(b) The licensee, in addition to either serving a 30-day notice, or seeking approval from the department and serving three days notice, on the resident, shall notify, or mail a copy of the notice to quit to, the resident's responsible person.
